Hi Leslie – putting this on your radar, Sue Paish has contacted PMO she is worried about orders getting back to Canada from US and Aisa.

Am wondering if we can connect her with Andre's team? To see if there is any room on the upcoming charters.

Madison is ready to assist if we need more information from Sue.

Sue Paish, digital super cluster ceo, called re a shipment of PPE ordered by the provincial health services authority. She has been working with the province on procurement.

They (PHSA) have been able to secure large quantities of masks from the US and Asia; however, they are not sure how the process works at the border.

Who is the best person to connect Sue and her contacts with to walk them through this? Is there information the govt would need?
