I know my officials have been engaged today at their level, but also happy to take a look and disaster check.

Noting also that PSPC sent a revision to PCO about how we talk about those contracts. Based on my chat with Emily, those changes don't seem to be integrated. I've let my comms know to touch base with PCO and will watch for the PM version to come in.

Have also sent these remarks to ISED as an FYI to avoid doubling up on talking contracts.
