**Attachments:** Vietnam Vgloves documents.pdf; ATT00001.htm

Dear Minister Anand and Assistant Deputy Minister Reza,

My name is Malcolm Lumbala, and I am an international consultant and former Executive Director of Pure Water Tech Group.

I hope you and your families are doing well. One of my contacts gave me your contact information.

During this period of coronavirus, I have been working with a number of governments and medical industry firms. I was informed that your government is looking for a supplier of nitrile and vinyl gloves.

I collaborate with one of the largest glove manufacturers in the world, Vgloves, a Vietnamese company that currently supplies several governments, including the USA, France and China.

I would be pleased to work with your departments to provide you with the largest inventory of gloves for the Government of Canada at the best price and with the fastest shipping times.

My partner Vgloves can provide you with approximately one billion boxes of certified gloves.

I have attached documentation about the company and their certifications.

You can reach me by phone at P or by email P

I look forward to hearing from you.

Take care.

Sincerely,

Malcolm LUMBALA
