Hi James,

Her contact info:
343-996-2251
ziann.lum@huffpost.com

Here is the response that was sent to her on October 13:

We can confirm that the approach outlined in the memo was approved.

Given the global nature of the pandemic and the severe competition for goods early on, we needed to protect the names of suppliers for certain hard-to-procure commodities, such as N95 respirators, nitrile gloves and swabs, to ensure these sources of supply remained available to us.

However, the procurement environment has since evolved. We have secured more than 2 billion articles of various personal protective equipment, and we will continue to receive steady, ongoing deliveries into the coming months. We are also continuing to leverage domestic supply chains wherever possible, with more than 40 percent of the total value of PPE contracts going to domestic companies.

In line with this new reality, and consistent with our commitment to transparency, we are now disclosing the majority of our COVID-19 contracting information on our [web page](#) as well as through normal proactive disclosure requirements. In limited cases, certain contract details cannot be disclosed, for example to protect commercial confidentiality of suppliers.

Thank you
Stefanie

Hi,

The reporter has filed and incorrectly states that we are presently withholding the contract information.

Can someone please contact her immediately for a correction?
Or send me her contact info?

Thanks,

James

Good morning Cecely,

For MO approval, please.

A copy of the note has also been attached to this email.

Thanks,

Tier 1 - Signature of Memorandum to the DM

CONTEXT (for your information):

The reporter submitted an ATIP request (A2020-00135) through which she obtained a copy of a Memorandum to the Deputy Minister from ADM Stott to DM Matthews, that appears to be unsigned by Mr. Matthews. The reporter emailed Mr. Matthews directly in an attempt to obtain more information on the Memorandum.

VALUE STATEMENT:

QUESTIONS / RESPONSES:

Q1. What was DM Matthews response to the document? Did he "agree" or "disagree" with the note?

Q2. What happened next?

Proposed response:

We can confirm that the approach outlined in the memo was approved.
