Subject: Re: DuPont - Producing Hand Sanitizer

All:

In addition to Alison's advice, sharing assistance from our federal cousins via Dove Parmar who manages the Ontario Desk for Minister Anand (who I copy for everyone's resource - full contact details at bottom).

Dove and his team have been extremely helpful to my office and has offered his contact to you as you navigate federal approvals. He shares important advice below:

I would advise DuPont to reach out to Health Canada's point of contact for Hand Sanitizer (hc.covid19healthproducts-produitsdesante.sc@canada.ca). Feel free to introduce them to me as well if they would also like a federal point of contact.

See below for additional information.

FOR NEW OR RETOOLING IDEAS:

Industry, Science and Economic Development Canada (ISED) has launched a "call to action" to Canadian manufacturers to help fight COVID-19. They have created a new web page as well as an intake for manufacturers that make needed supplies, have the potential to rapidly re-tool existing facilities or equipment, or who have skilled workers that could be available to work elsewhere in Canada.

- Web page: <https://www.canada.ca/en/services/business/maintaingrowimprovebusiness/manufacturers-needed.html>
- Generic email address: ic.mid-dim.ic@canada.ca

FOR EXISTING SERVICE PROVIDERS OR MANUFACTURERS (NOT RETOOLING):

Public Service and Procurement Canada (PSPC) has established a web portal and intake form for suppliers that are able to provide specific products (i.e. N95 masks, gowns, gloves and other PPE) or services (i.e. nursing, food, security)

- Information submitted through the web portal & generic email address are triaged by type and then referred to a procurement "tiger team" that crosswalks the information submitted through the portal to requirements determined by PHAC & P/Ts
- Web portal: <https://buyandsell.gc.ca/calling-all-suppliers-help-canada-combat-covid-19>
- Generic email address: TPSGC.PABPMEClient-APOSMEClient.PWGSC@tpsgc-pwgsc.gc.ca

HEALTH PRODUCT MANUFACTURER OR POTENTIAL IMPORTER THAT SEEKS CLARITY ON THEIR PATHWAY AND REGULATORY DETAILS:

For health product manufacturer or potential importer that want to seek clarity on their pathway and regulatory details:

For any questions/requests/applications for **medical devices, including test kits**, this email:

hc.devicelicensing-homologationinstruments.sc@canada.ca

For any questions/requests/applications for other **health products, including hand sanitizer**, this email:

hc.covid19healthproducts-produitsdesante.sc@canada.ca

Subject: RE: DuPont - Producing Hand Sanitizer

Hi David,

I will be sharing this with a colleague who is focusing on sanitizer products and will be able to help you further, regarding specifics like licenses to hold alcohol, flammable vats, etc.

As I know time is of the essence, I'll share a few things that might be helpful to consider in the meantime:

- **Expedited Regulatory Reviews**
 - Health Canada is indeed providing expedited licensing reviews, detailed [here](#).
 - See section "Information for manufacturers and importers", which will detail forms and mailboxes to use according to Dupont's particular situation.
- **Regulatory Consultants**
 - If you are looking for the assistance of a regulatory consultant, you might consider consulting [CAPRA](#) Canadian Association of Professionals in Regulatory Affairs' list of consultants.

A colleague of mine will be in contact shortly. We will also be following up with you regarding the Tyvek Coveralls.

Sincerely,
Alison

Alison McConnell

Hi David,

I am copying Alison McConnell from MEDJCT that may be able to provide insight on how to obtain a Health Canada license.

Regards,

Peter

Subject: DuPont - Producing Hand Sanitizer

Patrick, Peter and Carla. I can use your help with something.

DuPont is looking into making hand sanitizer at our facility in Kingston, Ontario and we are looking for your help to get a Product License and a Site License for production of this material. We understand that Health Canada offered expedited

licensing approvals this past weekend to manufactures of hand sanitizer but could use additional guidance on how we go about getting a license. Do you know who we can talk to within the Province of Ontario as well as Health Canada to move forward with this initiative?

We are estimating that we can produce around 2000 Liters per week, for the next few months. We are also looking for help to determine how to best distribute to groups in need (hospitals, test centers, long term healthcare facilities etc)

Any doors you can help us open at the provincial and national level would be greatly appreciated.

Best
