**Subject:** RE: OPQs outstanding - question on 425

Chelsea,

For the purposes of Q-425, we defined PPE in a narrow scope (in consultation with PHAC) as limited to: 1. Nitrile gloves; vinyl gloves, face shields, N95 masks disposable coveralls, Tyvek suits and boot covers, shoe covers and goggles.

PSPC will respond in two capacities, as : 1. central purchaser for the GoC; 2. a department.

As a central purchaser, there are PPE numbers for February and March 2020 that will be reported, then a link to the website.

The departmental portion of the response will include input from 6 branches/regions: Translation, SPIB, RPB, RGPB, PPCB, and Atlantic.

We are in the process of clarifying numbers with each branch.

Laura

Hi Laura,

Do you have an idea what will be included in Q-425? I think you mentioned what PPE we had purchased in our parl affairs call, but can you remind me?
