Subject: Re: Test kit and ventilators / COVID-19

Hi Chelsea,
FYI

Here is the confirmation that we submitted the federal form.

Pierre-Paul Coté

Thank you for your support for the Government of Canada's COVID-19 action plan.

Your reference number is 45740.

Public Services and Procurement Canada (PSPC) has a team of procurement experts who are assessing all of the applications as they are received.

We are receiving a high volume of applications. Our procurement experts are currently assessing, ranking and prioritizing them based on the government's COVID-19 response requirements.

We will contact the suppliers that are able to meet the identified requirements as they arise. However, please note that our procurement experts will not necessarily contact every company that submits an application.

We also recommend that suppliers keep abreast of the latest news related to procurement and public tenders and of any updates to the buyandsell.gc.ca website by registering for the:

- Email notification service
- Atom feed
- RSS feed

Thank you for your patience and understanding.

Steve Fortin
