Hello Anita,

Hope you are well and keeping safe. We are a manufacturing company located in Toronto and have pivoted very quickly to produce PPE in order to help the fight against COVID-19. We currently manufacture face shields, ear savers, body bags and have just received approval for a Level 3 isolation gown. We have invested time and money to ensure we had the correct approvals for the gown and would like to help with the shortages. Our gown and face shield have Health Canada approvals. I was reaching out to you in hopes that you could help connect us with decisions makers....we want to help. All of our products are Canadian made and the reusable gowns have 100 percent Canadian content. Your feedback would be greatly appreciated.

Thank you,  
Linda
