Subject: RE: Baylis medical

In addition to the below questions, can you please clarify the role of Baylis medical in the government's contract with FTI professional? Please acknowledge receipt.

Subject: Baylis medical

Hey there,
Happy Friday. Can you please clarify whether the government of Canada has contracted Baylis medical to provide ventilators or any other PPE or medical devices? Additionally is there any federal funding going indirectly to Baylis Medical? Finally, if Baylis has been contracted for any work, can you please tell me what the contracts are for and/or whether the company is involved in any government work at all?
My deadline is 4 pm
Thanks,
Marieke
