Hi Alex,

It's now up to the department to assess your file. They will now work with the requirements of the Public Health Agency of Canada (PHAC) and cross reference them with the supplies on submitted on the portal. They will reach out if/when your supply matches the needs of PHAC. I have passed along all your information to them and flagged your file so they know you are looking to get this moving as quickly as possible.

Best regards,

Chelsea
