Absolutely. I'm copying in Madison, my colleague from PSPC.

Madison – Jason is looking to get BDC funding for an automated N95/surgical mask production machine. Sounds like BDC will sort it out if he can show them an LOI or a PO from the government.

Lead time on the machine is about 30d from what I understand and there are probably foreign buyers looking at it too. Can you get Jason started with the process?

Hi Tim,

I've had a great initial discussion with BDC and will be sending them the budget this afternoon. In the meantime they said it'd be critical to have a LOI or open PO from Government supporting the project and or commitment to masks etc.

Let me know how the best way to handle that part will be?

Thank you,

Jason

Hi Tim,

I've completed the application on the portal, thank you for sending the link, I listed you as my contact in the referral link.

I'm sending an email now to my BDC contacts now.

Looking forward to moving this forward.

Thank you,

Jason

Hi Jason – thanks again for the call.

Here is the IRAP portal: <https://nrc.canada.ca/en/support-technology-innovation/covid-19-national-research-council-industrial-research-assistance-program>

I'll circulate the details to my colleagues and hopefully we'll be able to get this moving for you. Let me know what you hear from the folks at BDC.

Good morning Tim,

Thank you for the note. I absolutely have time for a call, I'll call you shortly.

Talk soon, best regards,

Jason

Hi Jason – I hope this finds you well. I was forwarded your prior email correspondence by my colleagues at the Prime Minister's Office.

Do you have time for a quick call today? I just want to get a little more information about Novo to make sure we are sending you to the right channel. Feel free to give me a call on my cell (below) at your convenience.

Best,

Tim Logan
