Subject: Fraudulent testing kits being sold

Hi Vanessa,

Does Health Canada have any mechanisms that prevent instances like those outlined in [this article](#)? Hoping to get some clarity on the following:

- What measures do we have to prevent the sale and distribution of fraudulent testing kits?
- Do we have enforcement measures/punishment of some kind for those that pretend to be Health Canada authorized manufacturers?

Hoping to get a better understanding on what our role is so that we can respond, if needed, to similar media stories. I understand that the PTs have raised many concerns around this possible issue.

Thank you,
Ash
