Pauline Tam? Dr. Tam? It's fine. I found some lines from HC that will be used to help further position the timing issue that Min Bains has already addressed. All good for now.

Subject: RE: URGENT Question

We've always used the time estimate 12-18 months. I'm pretty sure that Pauline Tam has spoken about this timeframe estimate too.

Subject: RE: URGENT Question

Good morning Miriam, I don't have any pre-approved lines that would answer questions on vaccine timelines broadly. I think Health would be the best bet in a time crunch, or he could defer the question to Health.

Hello,

As I flagged earlier to our exec team, Minister Bains will be doing an interview on the VTF and TTF with Global News, The West Block. There is one question that has come up in my discussions with the press secretary that I don't see addressed in the SBK. The question is:

Virologists say a vaccine in one year is impossible, more likely four. Can you comment on this?

Do we have anything that might be ready that we might use to address this. I will also reach out to HC to find out whether their MR team might have something we can use.

Miriam
