Quo minus animus a se ipse dissidentes secumque discordans gustare partem ullam liquidae voluptatis et liberae potest. Ut non sine causa ex iis memoriae ducta sit disciplina. Ergo in gubernando nihil, in officio plurimum interest, qui in genere peccetur. An dubium est, quin virtus ita maximam partem optineat in rebus humanis, ut reliquias obruit? Ne in odium veniam, si amicum destitero tueri. Duo Reges: constructio interrete. Stoici autem, quod finem bonorum in una virtute ponunt, similes sunt illorum; Sin tantum modo ad indicia veteris memoriae cognoscenda, curiosorum. Bonum liberis: misera orbitas. Nec vero pietas adversus deos nec quanta iis gratia debatur sine explicazione naturae intelligi potest. Tum Triarius: Posthac quidem, inquit, audacius. O magnum vim ingenii causamque iustum, cur nova existent disciplina! Perge porro. Satisne ergo pudori consulat, si quis sine teste libidini pareat? Scio enim esse quosdam, qui quavis lingua philosophari possint. Hoc ipsum elegantis ponit meliusque potuit. Utinam quidem dicerent alium allo beatorem! Iam ruinas videres. Potius ergo illa dicantur: turpe esse, viri non esse debilitari dolore, frangi, succumbere. Si longus, levius. Efficiens dici potest. Pudebit te, inquam, illius tabulae, quam Cleanthes sans commode verbi depingere solebat. Quid, cum fictas fabulas, e quibus utilitas nulla elici potest, cum volupitate legimus? Quid de Platone aut de Democrito loquar? Si stante, hoc natura videlicet vult, salvam esse se, quod concedimus; Negabat igitur ullam esse artem, que ipsa a se proficisceretur; Non igitur potestis volupate omnia dirigentes aut tueri aut retinere virtutem. Si de re disceptari oportet, nulla mihi tecum, Cato, potest esse dissensio. Quod est, ut dixi, habere ea, quae secundum naturam sint, vel omnia vel plurima et maxima.
