Hi – we received a tasking from ISED for all of our possible announcements. I gave Iain a heads-up that he will see it before it goes tomorrow, COB. I should have it today.

Here's the tasking from ISED for the announcement list. They'd like it by COB Thursday – Matt is on it for general NRC stuff, including IRAP, and I'll add in what we know for COVID and the VTF.

Subject: Forward Planning Calendar for rest of 2020 - need NRC info

Good afternoon Sofie,

We are being asked to put together a forward calendar of all expected and possible announcement opportunities for the rest of 2020, including those from portfolio partners.

These include current announcement opportunities (CFI MSI, etc), COVID-related opportunities (vaccine task force, anything from SRS on science), the granting councils review, cyclical opportunities (SDTC board meeting dates and anticipated # of projects, upcoming SSHRC, NSERC, CFI JELF funds etc), science week, LabsCan, PM Awards and NRC (challenge programs, other announcements). Just to name a few examples of things we're looking to add to it.

For each one, we need to include anticipated funding amounts if applicable (approximate amounts or a range would be OK) and approximate expected date when the announcement will be ready.

I'm not sure if you guys have already prepared something like this recently, so I apologize if this is a double request.

All I know of is the VTF announcement and the DND one Matt shared with me earlier today.

I haven't been able to find a list anywhere of other ones you may have coming up. Would you be able to get me this information by COB Thursday?

Thanks,
Sam ☺
