Subject: Approach to dealing with COVID-19 Vaccine Task Force projects

Hi Dave, hope you're doing well. I wondered if you might have a few minutes to chat about an idea I have for dealing with all the promising but ultimately not successful vaccine projects in the SIF pool. I have already chatted with Iain about this and will be meeting with him and Simon on Wednesday to discuss in detail. My scheme involved IRAP a bit. Once you have had a chance to read it over, could you kindly let me know when you might have a moment to chat it through. Best, Roger
