Hi Madison,

While we have connected with Minister Bains' office, is there someone in particular you feel we should speak with? I would welcome any suggestions and introduction.

With gratitude,
George

Subject: FW: SkyHive Respiratory Ventilation Report

Hi George,

Leslie forwarded along your email. Thank you for showing interest in providing services and products related to the COVID-19 pandemic. In addition to leveraging existing sources of supply, PSPC is now proactively engaging industry to help meet Canada's needs.

Many of us are receiving information from potential suppliers or individuals with helpful information on the COVID-19 response. I invite you to this website: <https://buyandsell.gc.ca/calling-all-suppliers-help-canada-combat-covid-19>. As this website will continue to be updated, I encourage you to check back for new information that may be posted.

My department is reviewing the significant number of responses and identifying potential suppliers for the goods and services that may be required as the COVID-19 situation continues to evolve. I have informed my team in Minister Anand's office of your proactive reach out.

Please do not hesitate to follow up with any questions, or share any relevant information that I can include in while tracking procurement opportunities (i.e. specific products, quantity available, production capacity).

If you are looking to get certification or licensing of a medical product, I can redirect you to Health Canada and Minister Hajdu's office. If you are looking for funding for manufacturers to re-tool or re-train to create a product to support Canada's response to COVID-19, I can redirect you to Innovation, Science and Industry and Minister Bains' office.

Hope this information helps!

Madison Taipalus
