Hello Dove,

Thank you again for sending me the resources for suppliers.

We got another email regarding someone who would like to contribute by setting up truck sanitization centres at border crossings. Do you know who they can get in touch with or what process they should go through to implement this?

Also cc'ing Health for awareness

Best,

Subject: Priti - Deepak's Daughter.

Hello Omar, This is Priti, Deepak's Daughter.

How are you keeping? Hope your family is safe as well! I have been following you and the Prime Minister and what the Liberals are doing, and honestly you all have been doing an excellent job in keeping Canadians from panicking. Thank you so much for the long hours and excellent work of taking care of us all.

I am writing because I need your help.

I am working on a project to help stop the virus from Crossing into Canada via the US border crossing, at the same time keeping trade with the US alive. As you know the US is quickly becoming the Epicentre for the Virus, as they have not been able to control it and it will only get worse. It will be detrimental to our economy if we had to close the borders for a long period. This solution we have been working on will allow trade to continue. Especially since Canadians have sacrificed so much.

PROJECT: Sanitization Truck Centres.

We want to set up Truck Sanitization Centres at all border crossings to prevent the VIRUS from crossing. I have attached the proposed project, and was hoping you could guide me as to who to send this project to and how I can get the appropriate approval for this. If approved, we can have this solution up and running in 15 days.

Your help in this matter will help Canadians continue being safe, as well as to keep trade and our economy alive, especially since the US provides many essential products and foods to Canadians, and vice versa.

I really appreciate your guidance in this matter.

Sincerely,

Priti Obhrai-Martin
