Hello Mr. Bélanger,

Thank you for reaching out to follow up with us.

Were you provided a reference number when you registered on the Buy and Sell website? Could you provide that number to me so I can follow up with our department on your submission.

Thank you,

Chelsea Kusnick

Subject: Personnel Protective Equipment offer.

Hi Mrs Anand,

I got your Email. Would it be possible to help me how to reach someone who is in charge of PPE purchasing.

One month ago I registered my company on the buyandsell website. Since that no body Email us from Government of Canada for a quotation.

In April, we received a Po for 64 millions procedure Mask to be delivered beginning of May for the Quebec Province Government.

Our mask imported form China was tested by the Government of Quebec.

We rent weekly our own plan to make sur that we can supply those masks at low cost. For example this week the Quebec Government will receive 8 millions procedure masks (two planes fo 5 millions units each landed in Toronto yesterday and

today) and next week 10 millions of masks will be shipped. We are planing to import over 20 millions units per week starting May 18 th.

Please find attached our PPE port-folio.

Ates Medical is a well known medical device suppliers since 12 years. We have a establishment licence from Health Canada since 12 years : MDELL: #4922.

May be we can help you to get more PPE in Canada.

For example, our suppliers could produce 6 millions surgical mask ASTM level1 or Level 2.

We could produce also 1 000 000 gowns AAMI level 1 or 2. We have 300 000 face shields in our warehouse.

We could provide your N95 with Niosh certificate from Rizhao with all documents.

We could supply you all documents (FDA, CE Mark, ASTM, AAMI etc) if you are interested to our product.

Also please find attach a letter of endorsement for Quebec Government for our custom Broker to facilitate our PPE from China.

Regards
