Hi media team,

Can we please issue a direct and correct on the CP article linked below to clarify that the 1.1 M are not arriving in Canada this week from China, that as per the PM's remarks on Tuesday, this number is expected to be distributed to provinces and territories by the end of this week.

The Minister said today that Canada has received around 2M N95s collectively, and we are expecting another 4 flights with supplies including N95s over the next week to arrive.
