Hi Leslie,

I spoke with Boyan and Tristan on this one, and confirmed with dept comms that Andrée had been engaged on the proposed response below re: the contract in place with **Bolloré** Logistics.

However, as this is certainly new information and could have implications on the ground in China, I wanted to ensure we got your input on sharing this publicly.

Understanding that this could also be an opportunity to refer back to in responses and interviews on the range of support we have on the ground.

Let us know your thoughts on confirming this.

Thanks.
Cecely

QUESTIONS / ANSWERS:

Q1. Do you have any information about this operation, such as the type of equipment, schedule, etc.?

Q2. Is it true that the first flight will land in Toronto on April 2?

A1-2 : Canada has an arrangement with Bolloré Logistics to provide transportation, receiving, inspection and warehousing services. As part of this arrangement, Bolloré Logistics is arranging transportation from China of **personal protective equipment** purchased by the Government of Canada. This will be an on-going process as shipments are ready for movement to Canada.
