Good morning, trusting you are all well 😊

Firstly, thank you for all of your help, The Prime Ministers announcements this morning are encouraging 😊, its not easy we know....we are not interested in discussing how we got where we are, only on a path forward:)

Working the Government's supply protocols and online submissions as directed...

**Concerned though, as we are hearing from our supply network in China that they are hearing that Canada has lots of supply of "Medical Supplies" from the Media and Government sources, if this is the case they will be directing supply to countries that are desperate for supplies, and stocking for the second wave in China,**

I hope that the supply for Canada has been locked up, if not we need to announce now that we need supply. If you have dealt with Chinese suppliers like we have you will understand their culture is different than from ours in that they will do all they can for the ones in most need, but have to be treated with respect and understanding....

We also have no intention of profiting for our support or saying I told you so at the other end of this curve...

Many thanks, Keep safe:)

**Subject:** Follow-up

Hi Dan,

Great chatting today. As discussed, a few follow-ups:

- Hand sanitizer tube producer in Montreal looking for product (Montebello) - Jean-Francois Leclerc - [jfleclerc@montebellopkg.com](mailto:jfleclerc@montebellopkg.com) - P [REDACTED]
- Copying Kelly from PSPC – she can point you in the right direction to follow-up on your buy and sell request
- On the retooling side, please follow-up with the Department in copy here: [ic.mid-dim.ic@canada.ca](mailto:ic.mid-dim.ic@canada.ca)

If you do not hear back within due time, don't hesitate to follow up with me.

Many thanks again for your offer of assistance during this challenging time.
