**Subject:** RE: planes to obtain supplies from China

I reached out to him. He has submitted his request on the PSPC portal though he couldn't find the reference number.

I'll call you, Caitlin to give you a rundown of the call.

**To:** Duncan, Kirsty - Personal <[REDACTED]>  
**Subject:** planes to obtain supplies from China

Dear Kirsty, I escalated the issue of local suppliers last week who were claiming to me that they could procure tons of medical supplies from China if we had planes go in to obtain them. Can I please get an answer on this. If we are short supplies, why are we not doing this? See Lee's newest email below.

I cant even begin to express how upset i am that nothing has happened since we discussed the shortage of planes. I have urgent supplies for our own hospitals here and cant get them out of china as ups and fedex have no space! Why? Cuz same planes used to go to usa hubs....

It is sickening to me that i told you as local mp and then filled in the web form you told me about and nothing has happened!!

Empty planes here! Crews doing nothing!

Delmar cargo has stuff on the go with this and yet the Liberal government cant get their act together.

Its 335k usd for a plane! Thats nothing compared to the massive amts you voted for.

Do u realize how many masks and supplies can fit on this plane? Enough for the entite montreal island and then some!

My suppliers in china begging us to get the stock out of their locations to ship!

This could be PR disaster for the govt when for small dollars, supplies for hospitals would be here and the government can rent planes and did nothing You can call me if you want.
