Subject: Re: Attention: Masks, inventory, production in China for procurement

Hi Crystal,

Adding in Dove from PSPC. They are handling the procurement side of PPEs.

Thank you,
Tasha

Hi Tasha,

Flagging the below. I let the constituent who raised it know I would bring it to the attention of the appropriate office.

Subject: Attention: Masks, inventory, production in China for procurement

Hon. Patty Hajdu and staff,

Check your aversion to Rebel Media and review this story.

https://www.rebelnews.com/medical_supplier_says_trudeau_government_procurement_process_is_broken_and_time_is_running_out

A Canadian has a friend in China with a factory that is offering the Canadian government inventory of medical supplies, masks, and potential production capacity. The Canadian made introductions through the government of Canada's coronavirus procurement website and email, and has not had a reply or action by Canadian officials in a week. Time is running out to secure the Chinese factory's inventory and production capacity. Wednesday deadline? So the Canadian is complaining to Rebel Media about the situation hoping for some action by Canadian officials.
