Hi all,

Our response to 425 states:

As central purchaser, PSPC does not maintain inventories of goods; it buys goods according to requirements identified by its client departments and agencies. **These centrally administered contracts are not included in the responses to this question provided by individual departments.**

I think that covers PPE being purchased for departments and agencies going forward.

Subject: RE: Q-425 for review/approval

Hello,

Dropping Kyle and Matt for now and bringing OPQ 425 back. If we want to modify the standard language provided to MiOs for 425, we need to do this asap. This is what we have right now as standard language:

The Privy Council Office had no inventory of personal protective equipment for the dates identified in this question. The Department did not purchase any units of personal protective equipment for the period of November 1, 2019, to March 31, 2020.

Le Bureau du Conseil privé n'avait pas d'inventaire des équipements de protection individuelle pour les dates identifiées dans cette question. Le ministère n'a acheté aucune unité d'équipement de protection individuelle pour la période du 1er novembre 2019 au 31 mars 2020.

Those that track their PPE and have bought PPE, have provided tables listing all relevant PPE. Health has not disclosed any numbers citing national security (stockpile).

Please let me know how we want to move forward with this.

Thanks,
Muna

I think that just because the Agency does not have any inventory and/or just because they did not purchase any PPE does not mean that they were never given PPE and/or that they don't have access to PPE if they need it.

If they need it – they can request it and PSPC can likely provide it, as the central purchaser & coordinator of PPE for all OGDs. So maybe we include that in the response. Would maybe hold for now. Adding Elliott.

Hi Kyle,

Please find the attached response to written question Q-425.
Let us know if it is ok to be armed.

Thanks
