Hi Chad,

We are just sorting out those details right now but there are a number of components that go into a testing strategy (ies) including existing capacity (academic and private labs, ability to expand PT and federal labs), reagent production, swabs, point of care diagnostic kits, sero surveillance and potential data platforms etc).

Not sure what SAC has planned but the issue of standing up a dedicated FPT group on this to support recovery efforts may be raised. At this time, I anticipate it will be a verbal discussion (no documents)
Luke

Good day Luke, Kelly:

In regards to item # 4 on the revised Agenda—Testing Strategy – Looking Forward (CAN) 15 min—are you able to provide any further particulars—e.g. whether it is just an info update or whether some discussion is planned? Will there be any briefing materials or draft documentation forthcoming in support of it?

Appreciate any additional context and clarity you can provide.

Thanks,

Chad
