We do not anticipate further changes, but would like to send updated versions to our DM and MiNO once amalgamated. We will await updated versions.

Thank you!

Hi all,

Confirming that the versions Chris sent Friday evening are not the latest versions. We are amalgamating changes as they come in, and will aim to share updated versions with the group later today.

Should we expect further changes from PHAC/HC?

Thanks,

Bryan

Adding Frédéric Baril, who leads on the Therapeutics Task Force (I lead on vaccines).

We did not send PSPC's products for approval by ISED's DM. Would you like us to?

We also shared with MINO (Bains) as FYI.

Thank you,

Hi Nathalie,

I'm working today for our team. We've had a question re the products – whether the Therapeutics Task Force should be referenced re remdesivir? Since the Vaccine Task Force is mentioned we've been asked to confirm if not mentioning the TTF is an oversight and should be added or if there is a reason for not including it. Can you advise?

**Subject:** RE: Draft Products for Tuesday's Announcement

Bryan, Nathalie,

Here is the next round of tracked edits. Minor to Qs&As plus a note for COVAX. Mostly our Min quote in NR. A couple additions to speech. Products are with ADMs now.

Chris

**Subject:** RE: Draft Products for Tuesday's Announcement

Here are some additional tracked revisions mostly in the NR and the Qs & As. We will continue with approvals and be in touch tomorrow.

Also to note is that our program has communicated with PSPC program and flagged that the full contract with Gilead and McKesson has not yet been signed. Only a Letter of Agreement has been signed. There is a risk of announcing it at this time in the event that contract negotiations with Gilead/McKesson fall apart.

**Subject:** RE: Draft Products for Tuesday's Announcement

Yes here is a draft. Will you be sending us back revised products shortly so we can continue approvals?

“This announcement of additional vaccine candidate contracts reinforces the Government of Canada’s commitment to provide a vaccine to as many Canadians as possible, when one is approved by Health Canada and becomes available on the market. In the meantime, we will be working with provinces and territories to distribute the 150,000 vials of Remdesivir to those patients who need it most to treat COVID-19.”

**Subject:** RE: Draft Products for Tuesday's Announcement

Hello Erika,

I’ve noticed Minister Hadju’s quote has been removed from the NR. Are you adding another quote given the COVAX content is no longer included?

Thanks for the clarification.

Nathalie

**Subject:** RE: Draft Products for Tuesday's Announcement

Hi, Bryan.

We're still finalizing getting all comments in, but wanted to share what we have at this time.

I'd also appreciate seeing the latest MLs doc for vaccine logistics. I had last seen version 4 and understand additional changes were possible on your end.

Review includes input from CIRID DGO, Roman Szumski (PHAC vaccine procurement) and Kaili Levesque (PHAC COVAX lead), HC TPD

Cheers,

**Erika**
