Good morning Dominique,

In response to your question in today's Daily re: serology tests manufactured in the US and our ability to potentially procure them given the Defense Protection act – this we are not sure of. It's a bit of a bigger question, not sure that we can find the answer to it in time for this morning's daily so I wanted to flag that for you now. We can dig into it a little today.

Thanks!

Saskia Jarvis
