Totally agree and we're working on splitting out the N95s.

I'm in touch with PS MINO – we need to be 1000% certain that CSC union is well aware of history of these masks and are good with it.

CSC has already received 1.8-million of them to be used as "face coverings." PHAC says that CSC has asked for another 4-million for future deliveries.

We need from PHAC how many of the remaining 4-million can be repurposed.

Fine for issues. Although I am not sure why we continue to say 11m N95s received, and then only indicate at the bottom in a tiny footnote that the vast majority of them are faulty. Seems a bit deceiving!

Hi all,

We can update our PPE web chart tomorrow around noon – attached is a preview of latest version as well as last week's for comparison.

This is still awaiting DMO approval on our end (I'll let you know if it changes anything).

Highlights:

We've received almost 5-million litres of hand-sanitizer (went from 87k litres to 5.1-million litres)

Our order numbers are stable – no new cancelations (but no new adds either).

Face shields and gowns each up by about 1-million.

N95s are up by about 250k

As discussed, we weren't planning to put MAA up again this week for this but recommend next week.

We will flag this update to a few journalists who follow this closely - who will likely rejoice we aren't updating late on Friday...
