Subject: Puritan - SWABS

Hi Team Pspc,

can you get the following for me ASAP?

When did we reach out to Puritan for tests swabs and what exactly did they say? Could they not supply only because of capacity or was it a US government order?

Puritan is located in Guilford, Maine correct?

Are there other companies who make these in the US? We want to hit all angles.

We are going to reach out to the Americans to see if they can assist short term.

Thanks,

Matt
