Subject: PPE issues in da news

We are receiving a PPE donation from China (PPE) today and will tweet our thanks via the relevant embassy (which is the same thing that we did with the Taiwan donation) but I do not believe that is happening before the PM presser.

^ this was raised on the issues brief.

HC will be issuing a public advisory on how they've issued a voluntary recall of certain KN95s manufactured in China that are known to have failed FDA and PHAC testing. HC DComms & PCO still haven't confirmed timing of release. I said the most important thing is to know if this will go pre-presser or post-presser but they haven't gotten back yet.

^ this was raised on the issues brief too.

Certain schools in QC are resuming today. There is a piece in French media (Journal de Montreal) which says that some of the schools still haven't gotten the PPE that the QC gov promised them.

^ I think we can deflect to the QC gov on that one, and say we're having convos about how we can support essential workers' PPE needs going forward.

Let me know if you need anything else!
