Nope —total who've been subject to outreach is now 107 (87 + original 20).

This is based off the NIOSH list. We are engaging with officials today/tomorrow on ensuring HC starts to receive and take action based on PHAC testing results.

Beautiful. Super helpful. Thanks Travis!

So the number increased from 20 MDEL holders to 87?

And is this outreach just based off the U.S. NIOSH "blacklist"? Or is this outreach also being undertaken based off PHAC's test results?

Subject: FYI: NIOSH List & Additional MDEL Outreach

Hey,

I just got an update from COB Friday — HC continues to monitor the NIOSH list and is proactively connecting with MDEL holders. Additional recall query letters were sent recently — see breakdown below:

- Number of additional recall letters (i.e., in addition to the initial 20 letters sent on May 10) sent to companies that may be importing or distributing from companies that failed NIOSH testing: **87**
- Number of companies that have confirmed that they are not impacted: **49**
- Number of companies that have agreed to recall/relabel: **14**
- Follow-up is ongoing with the remainder

Thanks,
Travis
