I think that makes sense. Can you pls flip the NR when you have a moment?

Also just FYI for folks – have been in touch with CAE and their plan is to issue their NR at 6am announcing the HC certification. They have a whole media plan where they will bring in certain outlets one by one in the morning to see the work on vents, get B-roll and interviews. We have seen the NR and are good with it

I'm ok with letting them proceed with this plan, as delaying it to coincide with our noon update means they have less time to get their media hits done

Subject: RE: Procurement update

Hi all,

For ISED, here are items we will cover:

Announcing the Vaccine and Therapeutics Task Forces (will send material shortly)

On PPE/Made in Canada front, 1) announcing contract with Galenus (based in Montreal for the manufacturing of magnetic silica beads, which is a critical input for COVID-19 testing in Canadian labs. Previously we announced LOI) and 2)

announcing that CAE and Ventilators for Canadians have each had their vents certified by HC, so an important step in ramping up of their production of 10,000 vents each, as per contracts put in place by GoC.

Cheers,
V

Subject: Procurement update

Hello friends!

It's that time of the week again lol. Can you please share the bare bones of your bosses procurement updates tomorrow so comms can incorporate into the PM's remarks?

Thanks so much!
Sabrina
