**Subject:** PPE Stats

Here is our latest, but would recommend you validate with PSPC on some of these #s to make sure they're fully up to date!

## Made in Canada — Key Statistics

- **Over 1,000** Canadian companies have either retooled or scaled up to manufacture and produce critical PPE
- This means that close to **50%** of the dollars we now spend on PPE are sourced from Canadian companies.
- **Over 6,500** companies have stepped up and offered their services during this crisis
- Domestic capacity of **20M L** of hand sanitizer per month. That is 8 Olympic-size swimming pools.
- Canadian suppliers make up **over half** of the current order of face shields.
- **5** domestic companies producing over **41,000** ventilators (Thornhill, CAE, V4C, Starfish, Vexos/Art McDonald)
- **18** domestic companies producing almost **28 million** gowns
- **3** investments in substantial domestic players for N95 and surgical masks (Medicom, GM, 3M Canada) producing tens of millions of masks:
  - **Medicom:** 20 million N95 and 24 million surgical
  - **GM:** 1 million per month surgical masks for 10 months
  - **3M Canada:** 25 million N95 (& 25 million from Ontario). Factory can produce up to 100 million N95 masks per year.
- **6** domestic companies developing disinfecting robots
- **4** domestic companies developing saliva based point-of-care tests
- **5** contracts with domestic companies to produce key chemical inputs for testing like guanidine thiocyanate and silica beads.
- **11** domestic companies developing swabs for test kits and **1** company (Precision ADM — CANSWAB) to produce 120,000 swabs per week.
