Subject: RE: Update

Hi Jim – Thank you for your emails. Apologies for the delay in replying.

I wanted to share with you the following information, PSPC has launched a number of procurement processes for requirements related to the ongoing response to the pandemic. Tender notices will continue to be posted on the Government of Canada's official tendering site [Buyandsell.gc.ca](https://buyandsell.gc.ca). We encourage you to visit the site, in particular the [Follow Opportunities](#) page, to learn how to benefit from our free email notification service. Use the quick-search icons on the [Tenders](#) page to search, browse and subscribe to the latest tenders.

We also suggest that you stay informed on the latest procurement-related news and website updates on [Buyandsell.gc.ca](https://buyandsell.gc.ca) by subscribing to:

- [Email notification service](#)
- [Atom feed](#)
- [RSS feed](#)

If you would you like to learn more about finding tender opportunities, or you have questions about the federal procurement process or how to [register as a supplier](#), the Office of Small and Medium Enterprises (OSME) is a great resource as well.

- Contact the National InfoLine at 1-800-811-1148 (Monday to Friday, 8:00am to 5:00pm Eastern) or by email at BPME.OSME@tpsgc-pwgsc.gc.ca.
- [Contact one of OSME's six regional offices](#) or [Request a callback](#) from an OSME representative.
- Register for PSPC's free webinar on "Finding Opportunities and Supplying Goods and Services to the Government of Canada during COVID-19" on our [Event calendar](#) page.

Finally, the Government of Canada has launched a new [Personal Protective Equipment Supply Hub](#) to bring together numerous available resources for organizations buying and selling PPE. As businesses start to re-open, they will need reliable information on the supplies required to keep their employees and others safe. You may therefore be interested in the information available on the Hub. In addition, this Supply Hub will provide access to commercial sites that bring together buyers and sellers of PPE. You may also want to consider making your products available through the sites, which will be accessible via the Supply Hub.

Thank you again for your offer of support and your interest in doing business with the Government of Canada.

Caitlin Mullan-Boudreau

Director of Operations , Office of the Minister of Public Services & Procurement

Directrice des opérations, Bureau de la Ministre des Services publics et de l'Approvisionnement

Subject: Update

Hi Caitlin

I have attached the latest report from the Government of Canada regarding PPE orders and amounts received.

What is the current status of these items?

As well as providing Canada with NIOSH approved N95 Honeywell masks, we can also supply Level 1-4 gowns and nitrile gloves.

Please let us know if there is a serious interest at your end, if not, we will fulfill other purchase orders we have received.

We can provide a time sensitive price of \$2.65 US per N95 mask up to and including orders received by July 31, 2020 (which can be fulfilled by October 31, 2020), after that date we will be adjusting price to \$2.85 US, a potential savings of \$2M US on a 10M unit order.

Thanks again,

Jim
