Hi,

as per our conversation, I applied through the online portal was called by triage and didn't get an update after that, its been almost a month. Our reference number was 53960. Our company name is numed supply corp.

We can provide particulate respirators, face masks, gowns (all levels), face shields, medical examination gloves, and goggles. This is getting a little frustrating for us because our partners just shipped 3 million gowns to France+5 Million

face shields to the UK last week and we see our Canadian stockpile depleting without being able to help. We have been consistently shipping other products overseas without a hitch, we want to be able to help our home as well. I can send test reports, manufacturer presentations, samples, and organize site visits to factories (in China, embassy staff can probably do this) on an as-needed basis.

I look forward to hearing from you.

Best Regards,

Jeevan Singh
