Hi Zubair,

Thanks or your time tonight.

As discussed, we would appreciate introductions to your colleagues in health and procurement to discuss the supply sourcing issues.

Of particular concern are shipments of medical supplies to Canada being confiscated en route to Canada. We need to get on top of this quickly.

I was going to go to Ben but if there are others who move quickly to speak to first then great. But they have to move at your speed. Because if this stuff hits the press there will be panic.

I'll ask Guri ans Jeff to chime in further. Thank you for being open to feedback and our candour.

Cheers
