Great song! Glad it worked out.

And thanks for the summer beat the heat tips. This heat is about to kill me. Bring back -30!

Success!

Thanks for everything – got the MDEL (#14439) this afternoonlet the orders flow (sung to the tune of, "Let The River Run", by Carly Simon – I know, I am dating myself 😊)

Truly, many thanks.

I'll wish you a good weekend in advance. If you are going near the water, make sure that you have plenty of sunscreen, a hat, and drink lots of water....the latter is the most important because it is very easy to get sunstroke as it will be so hot that perspiration will evaporate before any moisture appears (I learned that the hard way in Hong Kong many years ago).

Stay safe!

Bennett
