Hello Ms. Pelletier,

Thank you for contacting your Member of Parliament who has given us your email below.

The first thing I would like to show you is the Industry, Science and Economic Development Canada website, which has information for companies like yours that are looking to scale up and create the necessary supplies, such as masks.

- Website:  
<https://www.https://www.canada.ca/en/services/business/maintaingrowimprovebusiness/manufacturers-needed.html>
- Generic e-mail address: [ic.mid-dim.ic@canada.ca](mailto:ic.mid-dim.ic@canada.ca)

Once you have all the details, please fill in the form on the portal at <https://buyandsell.gc.ca/supplying-goods-and-services-in-support-of-canada-s-response-to-covid-19> .

When you have done that, please send me the reference number you receive, together with the number of masks you plan to produce and their cost. With that information, I will forward it to the Department, which analyzes all bids on the portal.

Thanks for all your help.

Sincerely,

**Chelsea Kusnick**

Hello Mr. Paul-Hus,

France Bélanger has sent me your contact information so that we can send you our offers for the manufacture of protective products.

The developments of the last few days have forced us to temporarily close our operations.

I am taking the liberty of sending you this email in order to offer you our services for all your sewing needs. We can also work as a subcontractor with companies that are already in production

We have been in the bedding and sleepwear business for over 30 years. Approximately 30 people work at the company in the manufacturing and shipping departments. Our sewing experience and skills are very broad-ranging.

We are also fabric importers. We have a large inventory of fabrics such as poly-cotton, 100% cotton, different quilted fabrics for mattress covers, waterproof fabrics for mattress protection, fleece fabric for blankets, non-woven (polypropylene non-woven fibre), pillows, etc.

We are also expecting fabric certified for the manufacture of protective masks next week. We are assembling a prototype in order to be able to produce this equipment. We will be able to invest in production equipment in order to be produce in volume for the coming months and years. Attached is our first prototype for a safety mask.

We would be very pleased to do our part for health care, in our own way. We could set up a team to manufacture items requiring sewing, whatever the needs may be.

You can reach me by email at this address or at the number below for any information:  

Thank you for helping us in our process.

Have a nice day,
