Hi Kathryn,

I'm sure you are incredibly busy with the current crisis. I will only take a moment of your time. I am seeking a contact for someone federally that I can speak to about arranging to supply some basic health masks and N95s. There is a non-profit organization that is associated with our Vietnam auto club that typically manufactures helmets for children and they are in the process of re-tooling to produce masks. They are a non-profit. I don't have timing yet but they are looking to ship to Canada as well as other countries. In advance of their availability, I am exploring how I could ensure they get into the supply line efficiently.

Thanks so much.

Jason
