Subject: Hand sanitizer proposal from Ultra Liquid Labs

Tim/Madison,

I have been also asked to find out about Ultra Lique's hand sanitizer proposal, attached, that they sent on March 22.

Apparently they received an automatic response email but nothing else. The person who assisted them on this is in the hospital so they have asked me to re out.

They have health approval for 60k litres of alcohol per week, have bought the ingredients like polymer, and have a site licence.

Feel free to call me at P [REDACTED] and let me know.
