Subject: RE: MINO contact- manufacturer backlog

Hello Mr. Couture,

Your email below was passed along to our office to follow up. As you know, in addition to leveraging existing sources of supply, Public Services and Procurement Canada(PSPC) is now proactively engaging industry to help meet Canada's needs.

I invite you to fill out the following form so we can track the offer: <https://buyandsell.ec.ca/calline-all-suppliers-help-canada-combat-covid-19>. Once you've submitted the form, please send me the reference number you receive so I can follow up for you.

Our department is reviewing the significant number of responses and identifying potential suppliers for the goods and services that may be required as the COVID-19 situation continues to evolve.

Thank you for your support.

Best regards,

Chelsea Kusnick

Subject: MINO contact- manufacturer backlog

Hi everyone,

It seems that many offices are hearing from manufacturers and suppliers who are at a standstill with the government. I managed to get the following information which you can share with businesses who have applied to be COVID19 suppliers and have yet to hear anything from the government.

You can share Madison Taipalus' aman- she is happy to help and try to address the backlog.

Email: madison.taipalus@canada.ca

The following information will be required:

- Products they have available

Hand sanitizer, surface sanitizer

- If they are licensed with Health Canada
We have DIN, ACIA
- Quantity available
Depending of the day
- vProduction capacity
- Company name
Sanimarc/ wood wyant www.sanimarc.com
- Contact details (phone and email)
Patrick Couture 819 740 1764
- Buyandsell reference number

Once that info is shared, the Minister's office will be able to flag the application with Procurement officials at PSPC.

I'm being told that thousands of applications have been received. This is great news. Businesses and manufacturers are working hard to help ensure essential workers have the supplies they need. Hopefully the Ministers office will be able to ensure applications are getting the proper recognition they deserve.

we also included the contact on the buyandsell website: For frequently asked questions, please see: [Q&As relating to COVID-19 Call to Suppliers](#).

If you need additional help, please contact the National InfoLine at 1-800-811-1148 (Monday to Friday, 8:00am to 5:00pm Eastern) or by email at BPME.OSME@tpsgc-pwgsc.gc.ca.

Hopefully this is helpful. If you have any concerns or further questions, please reach out.

Thanks

Lindsay Keeley
