Dear Madam

I am a practicing Pharmacst in Oakville and I am reading constantly of the shortages of N-95 and surgical masks in Ontario and possibly other parts of Canada.

I would like to advise that I am aware of a company that manufactures these items. They are based in China and have FDA approval on all they offer.

I am not cognisant of the regulations governing the importation of these items but would like to believe they are not insurmountable.

Please advise if I can be of assistance .

Thanks

Kind regards,

Vishnu Dyal
