Hello Mr. Comeau,

Thank you for your interest in providing products designed to address the COVID-19 pandemic. We appreciate your desire to step up and help our community and country in these uncertain times.

Our government has created a form that we invite you to fill out. In this way, all information and offers can be evaluated. This form can be found at the following link: <https://buyandsell.gc.ca/supplying-goods-and-services-in-support-of-canada-s-response-to-covid-19>. After completing this form, please send me the reference number you will receive so that I can track your order with the Department.

Again, thank you for your support. If you have any questions or concerns, please do not hesitate to contact our office.

Sincerely,

Chelsea Kusnick

Subject: Masks

Hello, I have one of my contacts (I am a sourcing expert) in China who found me two mask manufacturing plants; one makes 3 million surgical masks per week. The other makes 100,000 N95s per day. I need to contact them tonight; I received the abridged form for the info. I want to understand the government's payment. Delivery where there is a drop-off point for the products from the plant is near Guangzhou. They don't have a lot of inventory, but I could ask to buy all their surplus production every week. The bottom line is that with a several-week contract, they would probably be interested in producing for Canada. I had a doctor in my family look at the documents, and he told me that they were really N95s and have all the associated certifications, and my contract is very reliable. I met with her several times in China, and she is responsible for North American exports for a very large factory. I really need a contact person to prepare the most beneficial application for both parties. My number is +1-418-642-5559.
