Hello Mr. Nguyen,

Thank you for your kind email of support.

Thank you as well for submitting your supplies on the Buy and Sell portal. The department is going through all submissions and analyzing them to find the best suppliers for our needs.

I will pass along this information to them to add to your submission. They will reach out to you to let you know if you can support our efforts in procuring supplies.

Sincerely,

Chelsea Kusnick

Parliamentary Secretary Assistant and Legislative Assistant

Subject: FW: PPE - Services

Hi Heather,

I hope you are well. Let this Easter holidays fulfill our hearts with joy and for better times, and they will come!

I'm forwarding you the original email sent to Honourable Hadju and Anand. Also, I've responded to the Buyandsell website. My submission number is #48523. Finally, I responded to the call on action from Innovation, Science and Economic Development Canada. They did not confirm a submission number.

I can secure the production of 2 million procedure masks and 3 million disposable gowns. Delay for complete production is 2 to 4 weeks. All made in Vietnam. I should have samples available by end of this

week. These PPE's need to be certified by Health Canada. Would Canada have a need to secure these PPE's?

I look forward supporting our country and protecting our citizens.

Sincerely,
Manh Nguyen

Ms. Hajdu,

I hope you are well. I live on Montreal Island in the riding of Notre-Dame-de-Grâce. My Member of Parliament, the Hon. Marc Garneau, asked me to contact you directly (see attached email).

We want to participate in the Government of Canada's efforts to increase its inventory of personal protective equipment to help fight COVID-19. We are therefore proposing to manufacture protective gowns and surgical masks that meet Quebec standards. Please find attached a description of the manufacturing standards required for each item (Appendix 1 and 2). Capacity generating requirements are per million for each product and the factories are in Vietnam. We are very familiar with the logistics chain for importing clothing to Canada from Vietnam since we have been working in the retail industry for 15 years. Items are generally shipped by boat, but we are currently looking into shipping by air.

We would like to build a strong partnership to support the collective effort to care for our fellow citizens, while ensuring that our health care professionals have the proper protective equipment. **If there is a need, we would be pleased to offer our services and to discuss quantities, timeframes and price.**

Sincerely,
Manh Nguyen
