Hey guys, following up on this. Seems 2 new tests have been listed on the HC website:

<https://www.canada.ca/en/health-canada/services/drugs-health-products/covid19-industry/medical-devices/authorized/list.html>

<https://www.canada.ca/fr/sante-canada/services/medicaments-produits-sante/covid19-industrie/instruments-medicaux/autorises/liste.html>

Hey guys - received the below from PCO this evening

Is there a procurement deal in the works for this one? Anything we should know about next steps - if approved by HC, does that mean it still needs NML assessment?

Merci

>> Good evening,

>> Health Canada has notified us that they have authorized Diagnostics Biochem Canada (DBC) IgG antibody test.

>> The authorization will be added to Health Canada's website tomorrow, and I will share links once live.

>> As previously mentioned, Health Canada will take a reactive approach, to not be possibly perceived as profiling certain companies over others. Please let me know if you have any questions.

>> Thanks,

>> Camille
