Subject: **personal protection + social responsibility**

Hi Angad and Kate,

Following up on my previous email. As unemployment continues to devastate vulnerable populations impakt's partnership with Canada Sportswear is helping to protect and create local employment. Organizations including Bayshore Health, Shaw Communicators, TD and Shoppers Drug Mart are purchasing PPE through this initiative and local production of masks and other personal protection equipment is underway at Canada Sportswear in Toronto. See attached pictures.

In addition, PPE purchased through this program is helping the Impakt Foundation for Social Change to create new pathways to employment for vulnerable people and increase access to PPE for other vulnerable people.

Happy to keep you in the loop as this amazing program continues to build momentum.

best

Paul

ps Looking forward to my next Change for Good Conversation on Thursday April 30th at 11 (EST) with Tabatha Bull, President and CEO of the Canadian Council for Aboriginal Business. Register here: Change for Good.
