1.9 includes Quebec.

Waiting to get final confirmation from health. Will let you know.

So I can say that we will be sending 1.9 million masks to the provinces and territories as soon as possible? Is there a number I can reference for what's already gone to Quebec?

Global number is 1.9 million masks including what has gone to Quebec. Mixture of surgical and N95

So can we add these numbers together and say that we're shipping out almost a million masks to the provinces and territories as soon as possible?

And do we also have a number we can reference for what we sent to Quebec yesterday?

Hi Sabina,

Can you see if your team is comfortable with PM saying this:

Overnight, we received a shipment of over 1M masks from a known supplier in China that has arrived to a warehouse to PHAC warehouse in Hamilton. We have also validated a donation of 500k masks from the Jack Ma Foundation in the last 24 hours and another 400k from our government stockpile, which will be going out to Provinces and Territories as fast as we can. We have more shipments on the way and we are going to do everything we can to get supplies to our front line healthcare workers.

Trying to keep it high level but show some progress.
