**Attachments:** Maple Leaf Article - Ensuring Safe Aero Evacuations in the Global Era Co...docx

PMO,

As you know, this will now just be an article in the Maple Leaf. Attached is the final version that will be published tomorrow (29 May).

Thanks,  
Allison

**Subject:** For Info: RCAF procurement to assist with the transportation of infected patients/personnel

PMO,

As requested, please find below additional info re: the calendar entry for DND RCAF Procurement to transport infected patients.

Note: This has been moved from tomorrow to Thurs 21 May.

DND intends to announce via Social Media and through an internal article for The Maple Leaf (DND internal news publication) the awarding of 4 contracts worth \$7.3 million to purchase or have developed 4 types of isolation units. These units are being procured by the RCAF so that our Air Force can safely transport infectious patients if/when required. This ranges from large units that can fit four patients plus medical crew, to small isolation units that fit over a stretcher. Pandemics are likely to become the norm moving forward and the CAF needs to be prepared both to support its own personnel but also in the event that they are called to support GoC efforts domestically or internationally.

I will send the products for Review once avail.

Please let me know if you have any questions.

Thanks,  
Allison
