Subject: RE: Expected Demand for Ontario Health Care System

Thanks for this Shannon. Can you please ask the Premier's office to follow the proper channels on asks for supplies on this (i.e. have their Health DM reach out to ours with a formal ask?). That way we can triage their need and ask asap based on need. My understanding is that they had put the request in earlier this week, but it never made it to us and was only travelling through political channels which caused a delay in PHAC receiving the request.

Appreciate your help on this.

S.

Subject: FW: Expected Demand for Ontario Health Care System

Hi all,

Urgent request from Ontario below for more PPE. On the call they only mentioned Masks. As you see, they're going to flag through PHAC and I've flagged for my DM.

Subject: Expected Demand for Ontario Health Care System

Hi Shannon,

As discussed earlier today, you'll see below a list of immediate needs for Ontario's health care system. As we discussed, our officials will be submitting this request through PHAC momentarily. Additionally, our officials have indicated to us that they are looking for the urgent/advanced delivery of the listed quantities of Personal Protective Equipment to support the provincial health system through the weekend and until stockpiles start to arrive in the coming week. Happy to chat further tonight if there is any additional information we can provide or if there are specifics to be worked out as we recognize that we are requesting a quick turnaround.

If there is anything else you need from our team, just let me know.

Thanks so much,

Em
